Conformità

I nostri rubinetti meccanici a chiusura automatica temporizzata sono conformi alla norma UNI EN 816 "Rubinetteria sanitaria - Rubinetteria a chiusura automatica PN10"; i nostri rubinetti elettronici sono conformi alla norma EN15091 "Sanitary tapware - Electronic opening and closing sanitary tapware".

Compatibilità Elettromagnetica **CE**

Si tratta di un'auto-certificazione nella quale il produttore deve garantire egli stesso la conformità dei suoi prodotti, e deve essere in grado di presentare su domanda delle autorità la prova di quello che certifica.

Tutti i prodotti elettrici o elettronici marchiati CE, attestano che sono conformi alle seguenti norme:

Compatibilità elettromagnetica: Direttiva 2004/108/CE

Direttiva Bassa Tensione: Direttiva 2006/95/CE

Inoltre:

- EN 50 082-1 Compatibilità elettromagnetica - Norma generica d'immunità - Ambiente domestico, commerciale e industriale leggero.
- EN 50 082-2 Compatibilità elettromagnetica - Norma generica d'immunità - Ambiente industriale, del 1998 e le emissioni di classe B EN 50, del 2001.
- EN 60947-5-1 Accessori elettrici a bassa tensione. Apparecchi ed elementi di commutazione per il controllo dei circuiti. Apparecchi elettromeccanici per circuiti di comando, giugno 2000 e IT 60947-5-1/A12, giugno 2000
- EN 60950-1 Sicurezza degli apparecchi di trasformazione, ivi comprese attrezzature elettriche per ufficio, aprile 2002. La norma descrive in dettaglio le prescrizioni di sicurezza previste per ridurre i rischi d'incendio, di scossa elettrica e lesioni per l'operatore o per i non addetti che possono venire a contatto con le apparecchiature. La norma ha lo scopo di ridurre tali rischi.

compliance

Compliance

Our time controlled, automatically shutting, mechanical tapware complies with the UNI EN 816 law, "Sanitary tapware - Automatically shutting tapware PN10", while our electronic tapware complies with the EN15091 law, "Sanitary tapware - Electronic opening and closing sanitary tapware".

Electromagnetic Compatibility **CE**

This is a self-certification in the measure of which the producer itself must guarantee the compliance of its products, and must be capable of presenting on demand of the authorities the proof of that which is certified.

All electric or electronic products marked CE, attest that they comply with the following legislation:

Electronic compatibility: CE Directive 2004/108/CE

Low Tension CE Directive 2006/95/CE

Furthermore:

- EN 50 082-1 Electromagnetic compatibility - Generic law of immunity - Domestic, commercial and light industry environment.
- EN 50 082-2 Electromagnetic compatibility - Generic law of immunity - Industrial environment, since 1998 and class B emissions EN 50, of 2001.
- EN 60947-5-1 Low power electric accessories. Appliances and electronic switching elements for circuit control. Electronic appliances for control circuits, June 2000 and IT 60947-5-1/A12, June 2000
- EN 60950-1 Safety of transformation appliances, including electric office equipment, April 2002. The law describes in detail the safety prescriptions to reduce risk of fire, electric shock and body harm to operators or unauthorised personnel who can come into contact with the appliance. The law is to reduce such risks.

Miscelatore elettronico per lavabo, completo di comando a fotocellula elettronica, **regolazione manuale della temperatura**, con sistema antivandalo e rubinetti filtro, **senza scarico**.
 Electronically controlled mixer for washbasin, with **manual temperature setting**, anti-vandal system, complete with filtering angle valves, **without waste**.
 Mitigeur électronique de lavabo, complet de commande à cellule électronique, **reglage manuel de la température**, système anti-vandale, complet de robinets-filtre, **sans vidage**.
 Elektronische Mischer mit Photo-elektrische Zelle, **Mechanische Temperaturreglung**, anti Vandale System, komplett mit Filter-Eckventile, **ohne Ablaufgarnitur**.
 Mezclador electrónico para lavabo, completo de mando fotocélula electrónica y con **regulación manual de la temperatura**, con sistema antivandalo y con grifos filtros, **sin desagüe**.

Miscelatore con elettrovalvola bistabile (1 entrata acqua calda, 1 entrata acqua fredda), alimentazione 220V/115V AC-6V DC.

Mixer with bi-stable solenoid valve (1 entry cold water, 1 entry hot water), main 220/115V AC-6V DC.

Mitigeur avec electro-vanne bi-stable (1 entrée eau froide, 1 entrée eau chaude), alimentation 220V/115 AC-6VDC.

Mischbatterie mit Doppelbeständigkeit Magnetventil (1 Eingang Kalt und 1 Eingang Warmeswasser), 220V/115 AC-6V DC.

Mezclador con electroválvula bistable (1 entrada agua caliente, 1 entrada agua fría), alimentación 220V/115V AC-6V DC.

Miscelatore con elettrovalvola bistabile (1 entrata acqua calda, 1 entrata acqua fredda), alimentazione pila al Lithium 6V.

Mixer with bi-stable solenoid valve (1 entry cold water, 1 entry hot water), Lithium battery 6V.

Mitigeur avec electro-vanne bi-stable (1 entrée eau froide, 1 entrée eau chaude), alimentation par batterie Lythium 6V.

Mischbatterie mit Doppelbeständigkeit Magnetventil (1 Eingang Kalt und 1 Eingang Warmeswasser), Batterie Lythium 6V.

Mezclador con electroválvula bistable (1 entrada agua caliente, 1 entrada agua fría), alimentación batería Lithium 6V.

Miscelatore elettronico per lavabo, completo di comando a fotocellula elettronica, **regolazione manuale della temperatura** con sistema antivandalo e rubinetti filtro, **scarico Click-Clack**.
 Electronically controlled mixer for washbasin, with **manual temperature setting**, anti-vandal system, complete with filtering angle valves, **with Click-Clack waste**.
 Mitigeur électronique de lavabo, complet de commande à cellule électronique **reglage manuel de la température**, système anti-vandale, complet de robinets-filtre, **avec vidage Click-Clack**.
 Elektronische Mischer mit Photo-elektrische Zelle, **Mechanische Temperaturreglung**, anti Vandale System, komplett mit Filter-Eckventilemit, **Click-Clack Ablaufgarnitur**.
 Mezclador electrónico para lavabo, completo de mando fotocélula electrónica y con **regulación manual de la temperatura** con sistema antivandalo y con grifos filtros, con **desagüe automático Click-Clack**.

Miscelatore con elettrovalvola bistabile (1 entrata acqua calda, 1 entrata acqua fredda), alimentazione 220V/115V AC-6V DC.

Mixer with bi-stable solenoid valve (1 entry cold water, 1 entry hot water), main 220/115V AC-6V DC.

Mitigeur avec electro-vanne bi-stable (1 entrée eau froide, 1 entrée eau chaude), alimentation 220V/115 AC-6VDC.

Mischbatterie mit Doppelbeständigkeit Magnetventil (1 Eingang Kalt und 1 Eingang Warmeswasser), 220V/115 AC-6V DC.

Mezclador con electroválvula bistable (1 entrada agua caliente, 1 entrada agua fría), alimentación 220V/115V AC-6V DC.

Miscelatore con elettrovalvola bistabile (1 entrata acqua calda, 1 entrata acqua fredda), alimentazione pila al Lithium 6V.

Mixer with bi-stable solenoid valve (1 entry cold water, 1 entry hot water), Lithium battery 6V.

Mitigeur avec electro-vanne bi-stable (1 entrée eau froide, 1 entrée eau chaude), alimentation par batterie Lythium 6V.

Mischbatterie mit Doppelbeständigkeit Magnetventil (1 Eingang Kalt und 1 Eingang Warmeswasser), Batterie Lythium 6V.

Mezclador con electroválvula bistable (1 entrada agua caliente, 1 entrada agua fría), alimentación batería Lithium 6V.

Robinet mono, avec electrovanne bi-stable (1 entrée eau froid ou pre-mitigée), alimentation 220V/115 AC-6V DC.

1 Wasserlauf, mit Doppeltbeständigkeit Magnetventil (1 Eingang, Kalt oder Misch Wasser), 220V/115 AC-6V DC.

Grifo monoagua con electroválvula bistable (1 entrada de agua fría o mezclada), alimentación 220-115V AC-6V DC.

Rubinetto **monoacqua** con elettrovalvola bistabile (1 entrata acqua fredda o miscelata) e pila Lithium 6V.

Single water tap, with bi-stable solenoid valve, (1 entry cold or pre-mixed water), Lithium battery 6V.

Robinet mono, avec electrovanne bi-stable (1 entrée eau froid ou pre-mitigée), alimentation batterie Lythium 6V.

1 Wasserlauf, mit Doppeltbeständigkeit Magnetventil (1 Eingang, Kalt oder Misch Wasser), Batterie Lythium 6V.

Grifo monoagua con electroválvula bistable (1 entrada de agua fría o mezclada), batería Lithium 6V.

Miscelatore elettronico alto per lavabo, completo di comando a fotocellula elettronica, **regolazione manuale della temperatura**, con sistema antivandalo e rubinetti filtro, **senza scarico**.
 Electronically controlled tall mixer for washbasin, with **manual temperature setting**, anti-vandal system, complete with filtering angle valves, **without waste**.
 Mitigeur électronique haut de lavabo, complet de commande à cellule électronique, **reglage manuel de la température**, système anti-vandale, complet de robinets-filtre, **sans vidage**.
 Elektronische Hoch Mischer mit Photo-elektrische Zelle, **Mechanische Temperaturreglung**, anti Vandale System, komplett mit Filter-Eckventile, **ohne Ablaufgarnitur**.
 Mezclador electrónico alto para lavabo, completo de mando fotocélula electrónica y con **regulación manual de la temperatura**, con sistema antivándalo y grifos filtros, **sin desagüe**.

Miscelatore con due elettrovalvole bistabili (1 entrata acqua calda e 1 entrata acqua fredda) con alimentazione 230V/115V AC - 6V DC.

Mixer with two bistable solenoid valves (1 intake for hot water and 1 intake for cold water) with 230V/115V AC - 6V DC power supply.

Mélangeur avec deux électrovannes bistables (1 entrée eau chaude et 1 entrée eau froide) à alimentation 230V/115V AC - 6V DC.

Mischbatterie mit zwei Magnetventil (1 Warmwassereinlauf und 1 Kaltwassereinlauf) mit Stromversorgung 230V/115V AC - 6V DC.

Mezclador con dos electroválvulas biestable (1 entrada para el agua caliente y 1 entrada para el agua fría) con alimentación 230V/115V AC - 6V DC.

Miscelatore con due elettrovalvole bistabili (1 entrata acqua calda e 1 entrata acqua fredda) pila al Lithium 6V.

Mixer with two bistable solenoid valves (1 intake for hot water and 1 intake for cold water) Lithium battery 6V.

Mélangeur avec deux électrovannes bistables (1 entrée eau chaude et 1 entrée eau froide), alimentation par batterie Lythium 6V.

Mischbatterie mit zwei Magnetventil (1 Warmwassereinlauf und 1 Kaltwassereinlauf) Batterie Lythium 6V.

Mezclador con dos electroválvulas biestable (1 entrada para el agua caliente y 1 entrada para el agua fría), batería Lithium 6V.

CONDIZIONI GENERALI DI VENDITA

Le presenti condizioni generali disciplinano tutti gli attuali e futuri contratti fra le parti, salvo eventuali deroghe specificatamente concordate per iscritto. Eventuali condizioni generali del compratore non troveranno applicazione nei rapporti futuri fra le parti se non espressamente accettate per iscritto dalla Palazzani Rubinetterie S.p.A.

Contratto

L'invio da parte del compratore di un ordine al venditore comporta l'applicazione al contratto di vendita delle presenti condizioni generali. Il venditore si riserva il diritto di accettare o rifiutare l'ordine ricevuto. Le offerte fatte da agenti, rappresentanti ed intermediari nominati dal venditore non sono per lui impegnative fino a quando non siano confermate dal venditore stesso.

Prezzi

Ai prezzi indicati nel presente listino deve essere applicata l'IVA secondo l'aliquota in vigore al momento della fatturazione. Il venditore si riserva di modificare i prezzi, o variare il listino prezzi senza alcun preavviso.

Modelli

Il venditore si riserva la facoltà di apportare senza nessun preavviso, modifiche ai modelli che riterrà opportune.

Resa della Merce

Salvo contrariamente pattuito, la fornitura dei prodotti si intende Franco Fabbrica del venditore: trasporto ed assicurazione sono pertanto a carico del compratore e ciò anche quando sia convenuto che la spedizione o parte di essa venga curata dal venditore, nel qual caso quest'ultimo agirà come mandatario del compratore, essendo inteso che il trasporto verrà effettuato a rischio del compratore.

I rischi relativi alla fornitura passano al compratore al momento in cui i prodotti lasciano lo stabilimento del venditore.

Termini di Consegna

I termini di consegna si intendono approssimativi a favore del venditore e comunque con un congruo margine di tolleranza. E' esclusa qualsiasi responsabilità del venditore per danni derivanti da anticipata, ritardata o mancata consegna, totale o parziale. Il compratore è sempre tenuto a prendere in consegna i prodotti, anche in caso di consegne parziali e quando i prodotti vengano consegnati prima o successivamente alla data di consegna stabilita. Il termine di consegna verrà prorogato di un periodo pari a quello della durata dell'impedimento al verificarsi di cause di forza maggiore. In nessun caso, a causa del verificarsi di tali circostanze, il compratore potrà esigere compensi o indennizzi di qualsiasi natura.

Garanzia

Il venditore garantisce la conformità dei prodotti forniti; con il termine di conformità dei prodotti si intende che essi corrispondono per qualità, quantità e tipo a quanto stabilito nel contratto e che sono esenti da vizi che potrebbero renderli non idonei all'uso cui sono destinati. La garanzia per vizi è limitata ai soli difetti dei prodotti conseguenti a difetti di progettazione, di materiale o di costruzione riconducibili al venditore, e non si applica nel caso in cui il compratore non provi di aver effettuato una corretta conservazione dei prodotti e di non averli modificati senza il consenso del venditore. Il venditore non risponde dei difetti di conformità dei prodotti dovuti all'usura normale di quelle parti che, per loro natura sono soggette a usura rapida e continua. La garanzia decade qualora i prodotti vengano sottoposti a pressioni superiori a quelle ammesse dalle norme europee: 5K/cm² e quando non vengono rispettate le raccomandazioni del produttore. La garanzia non copre i danni causati da acqua contenente corpi estranei.

Raccomandazioni del produttore

Si raccomanda l'installazione di un filtro centralizzato e la sua corretta manutenzione per non esporre la rubinetteria alle impurità dell'acqua. Si raccomanda l'installazione di riduttori di pressione nei casi in cui la pressione di esercizio superi i 5kg/cm². Per i miscelatori termostatici si raccomanda per un corretto utilizzo del rubinetto una temperatura di ingresso dell'acqua calda (65°C^o + - 5) come da norme UNI 1111. Per la pulizia delle superfici cromate, si raccomanda di non utilizzare acidi corrosivi soprattutto se contenenti acido cloridrico. Le finiture speciali devono essere pulite solo con acqua ed un panno morbido.

Reclami

Il compratore è tenuto a verificare la conformità dei prodotti e l'assenza di vizi. I reclami relativi a non conformità dei prodotti forniti dovranno essere effettuati, a pena di decadenza, entro e non oltre quindici giorni dal ricevimento della merce a destino. I vizi, difetti o non conformità occulti devono essere denunciati immediatamente alla loro scoperta e comunque, a pena di decadenza, entro e non oltre sei mesi dalla data di consegna. Tutti i reclami devono essere effettuati mediante lettera raccomandata indirizzata al venditore e devono indicare dettagliatamente i vizi e le non conformità contestate con prove documentali. La garanzia ha una durata di sei mesi.

Rimedi

In caso di Prodotti non conformi, e dopo aver ricevuto un rapporto dettagliato dal compratore, il venditore potrà, a sua insindacabile scelta:

- fornire gratuitamente Franco Fabbrica al compratore prodotti dello stesso genere e quantità di quelli risultanti difettosi o non conformi a quanto pattuito, oppure le sole parti difettose dello stesso dopo averne ottenuto la resa per la verifica. La eventuale sostituzione effettuata prontamente dal venditore non può essere ritenuta un implicito riconoscimento dei vizi contestati: detto riconoscimento dovrà essere sempre esplicito e conseguente al controllo del venditore sui prodotti contestati. Qualora il venditore, in sede di verifica, non riconosca viziati i prodotti, provvederà alla fatturazione di quelli inviati in sostituzione; oppure
 - emettere una nota di accredito a favore del compratore per un importo corrispondente al valore dei prodotti difettosi.
- In entrambi i casi il venditore ha diritto alla restituzione dei prodotti difettosi, che diventano di sua proprietà.

Limitazione di responsabilità del venditore

Salvo dolo o colpa grave del venditore l'eventuale risarcimento di qualsiasi danno al compratore non potrà comunque superare il prezzo di fattura dei prodotti contestati.

Pagamento

I pagamenti ed ogni altra somma dovuta a qualsiasi titolo al venditore si intendono netti al suo domicilio. Qualsiasi ritardo o irregolarità nel pagamento dà al venditore il diritto di sospendere le forniture o di risolvere contratti in corso, anche non relativi ai pagamenti in questione, nonché il diritto al risarcimento degli eventuali danni. Il venditore ha altresì il diritto a decorrere dalla scadenza del pagamento, agli interessi moratori nella misura stabilita in Italia dall'art. 5 del Decreto Legislativo 9 ottobre 2002, n. 231. Il ritardo nei pagamenti dà altresì al venditore il diritto di escludere la garanzia per tutto il periodo durante il quale il ritardo perdura.

Riserva di proprietà

I prodotti consegnati restano di proprietà del venditore sino al momento del completo pagamento del prezzo.

Legge applicabile e foro competente

Tutti i contratti disciplinati dalle presenti condizioni generali sono regolati dalla legge italiana. Per ogni controversia relativa o comunque collegata ai contratti cui si applicano le presenti condizioni generali è esclusivamente competente il foro del venditore; quest'ultimo avrà tuttavia facoltà di agire presso il foro del compratore.

GENERAL CONDITIONS FOR SALE

These general conditions regulate all present and future sales contracts between the parties, subject to any exceptions specifically agreed upon in writing. Any general conditions of the purchaser will not apply to future contractual relations between the parties unless expressly accepted in writing by Palazzani Rubinetterie S.p.A.

Formation of the Contract

The purchaser placing the order fully accepts the application of these general terms to the Contract for sale. Seller reserves the right to accept or refuse it. Offers made by Agents, Representatives or auxiliaries of the seller do not bind him until they are confirmed by the seller itself.

Prices

The prices indicated in this price list do not include V.A.T. or any other tax whatsoever. Seller may modify the prices / price list without prior notice.

Patterns

The supplier reserves the right of modifying the patterns and designs without any notice.

Surrender of the goods

Unless agreed to the contrary, the supply of the products is intended ex-factory: transport and insurance are therefore at the charge of the purchaser, this also when it is decided that the delivery or part of it will be taken care of by the seller, in which case the latter will act as the purchaser's agent, it being understood that the transport will be carried out at the expense and risk of the purchaser.

The risks relative to the supply pass to the purchaser, at the latest at the time in which the products leave the seller's plant.

Delivery terms

The delivery limits are agreed approximately in favour of the seller and not binding for him. Any liability of the seller is excluded for damage deriving from anticipated, delayed or non delivery, total or partial.

The purchaser is always held to take delivery of the products, even in the case of partial deliveries and even when the products are consigned before the established delivery date or successively to that date.

The seller shall not be deemed to be in breach of this agreement, or otherwise be liable to the purchaser, by reason of any delay in delivery, to the extent that the delay is due to any Force Majeure, and the time for performance of delivery shall be extended accordingly.

Guarantee

The seller guarantees the compliance of the products supplied; by the term compliance of the products it is meant that they correspond in quality, quantity and type to what was agreed in the contract and that they are without defects that could render them unfit for the use to which they are intended to be put. The guarantee against defects is limited only to product defects due to defects in planning, materials or construction that can be attributed to the seller, and does not apply in the case where the purchaser is unable to prove a correct preservation of the product and where he has modified them without the agreement of the seller. The seller is not liable for defects in product compliance due to the normal wear of those parts which, by nature, are subject to rapid and continuous wear and tear. The guarantee does not apply if the products are submitted to a water pressure higher than 5 Kg/cm² as suggested by European Specification. Also the guarantee does not apply in case the producer's recommendation are not respected. The guarantee does not cover damages caused by water containing foreign bodies.

Producer's recommendation

It is recommended to install a centralized filter, and carry the maintenance in order not to expose the taps and the mixer to the impurity of the water. It is recommended the installation of pressure reducers in cases where the working pressure is more than 5 Kg/cm². For the cleaning of the chromium plated surfaces, it is recommended not to use corrosive acids, especially if containing hydrochloric acids. Coatings other than chrome, the cleaning has to be done only with water and a soft cloth.

Claims

The purchaser is required to control the compliance of the products and the absence of flaws.

Claims relevant to non-conformities of the goods must be made, on pain of forfeiture, within and not later than fifteen days from the goods arrival at their place of destination. Hidden flaws, defect or non-compliances must be reported immediately after the discovery and in any event, on pain of forfeiture, not later than six months from the delivery date.

Claims must be made by registered letter, addressed to the seller and must describe in detail the flaws or disputed non-compliances. The guarantee is for a limited period of six months from delivery date.

Remedies

In case of faulty products and following to a report by the purchaser, the seller may at his discretion:

- supply ex-factory to the purchaser products of the same kind and quantity as those that proved not in compliance, on receiving returns for checking. Any replacement carried out promptly by the seller cannot be considered as implicit recognition of defects claimed: said recognition must always be explicit and following control by seller on goods challenged: should the seller, on controlling, find the goods in compliance, he will invoice for those sent in replacement; or
 - issue to the purchaser a credit-note in the amount equal to the value of the defective products.
- In both cases the purchaser shall return the faulty products to the seller.

Limit of the seller's liability

Except in the case of fraud or gross negligence on the seller's part, compensation of any damage to the purchaser will not, in any event, be greater than invoice price of the disputed products.

Payments

The payment and every other sum due to the seller, are understood as net at the registered office of the seller.

Any delay or irregularity in the payment gives the seller the right to suspend the supply or to cancel the contract in course, even if they are not relevant to the payments in question, as well as the right to compensation for eventual damages. The seller has also the right - starting from the payment deadline - to interests for delay as per art. 5 of Italian Legislative Decree no. 231 of 9/10/2002. The delays of payment likewise give the seller the right to exclusion from guarantee, for the whole period that the delay may persist.

Retention of Title

The delivered products remain the seller's property until the moment of the complete payment of the price.

Applicable Law and Competent Law-Court

All Contracts ruled by these general conditions are submitted to Italian Law. For any controversy relative to, or connected to the contractual products to which this general conditions apply, the seller's Law-Court has the exclusive competence; the latter, however, will have the opportunity to act also in the purchaser's Law-Court.
